FLORIAN MOHNERT

Celebesstraat 110 L , 1094EX Amsterdam, the Netherlands florianmohnert.github.io \diamond mail@florian-mohnert.de \diamond github.com/florianmohnert

EDUCATION

MSc Artificial Intelligence, University of Amsterdam, current GPA: (8/10)

09.2017 - 08.2019

- Two year program with a technical approach towards AI research.
- Sample of my coursework: Machine Learning 1 & 2, Natural Language Processing, Reinforcement Learning, Information theory, Unsupervised Language Learning, Computer Vision, Multi-Agent Systems

Minor: Mathematics & CS, University of Hong Kong & University of Groningen

09.2015 - 07.2017

- Coursework: Probability theory, Linear Algebra, Multivariable Calculus, Neural Networks, Data Visualization

BSc. Psychology, University of Groningen, GPA: 8.4/10

09.2014 - 07.2017

- Specialization: Cognitive Psychology and Statistics
- Thesis: "A graphical modelling approach to study behavioral interventions on household energy usage."

Honors Program, University of Groningen, GPA: 8.5/10

09.2015 - 07.2017

- 45 credits of interdisciplinary courses and projects
- Offered to top 10% of students across all BSc programs

Abitur (German highschool degree), Gymnasium Johanneum, Hamburg

09.2006 - 08.2014

EXPERIENCE

Internship: Research, Max Planck Institute for Intelligent Systems, Tuebingen

07.2017 - now

- Working in Rationality Enhancement Group supervised by Dr. Falk Lieder (PI)
- Assessing the computational rationality of human decision making with metacognitive reinforcement learning.

Internship: Data Science, Sowiso Amsterdam

07.2017 - 09.2017

- Sowiso: E-learning for Mathematics and other Exact Sciences
- Improving learning analytics for teachers (e.g. better visualizations)
- Set up experiment to find stable predictors for lower performance in student population.

Research Assistant, University of Groningen, Department of Statistics

01.2016 - 09.2017

- Research topic: Time series analyses of Household Energy consumption data in the NL.
- Methods: Classical time series methods (ARIMA & VAR models), Hidden Markov Models
- Supervision: Dr. Casper Albers, Nitin Bhushan

Research Assistant, University of Groningen, Department of Social Psychology

09.2015 - 09.2016

- Research topic: Two experiments on Norm development in chat conversations, more specifically the effect of subtle signals on perceived sexism.
- Supervision: Dr. Namkje Koudenbourg

Volunteer Teacher, Wadduwa, Sri Lanka

07.2015 - 09.2015

- Taught English and math in a Budhist temple.

SKILLS

Programming (> 3 years of regular use)

Python, Matlab, R, Bash, git, \LaTeX

Programming (familiar with)

Javascript (esp. D3.js), SQL, HTML/CSS

Deep Learning

PyTorch, Keras

Spoken Languages

German (native), English (fluent), Dutch (proficient)

PUBLICATIONS

Under the hood: Using diagnostic classifiers to investigate and improve how language models track agreement information. To appear at EMNLP workshop workshop Analyzing and interpreting neural networks for NLP. 08.2018
